Hello again Jacqueline:

The two applications in question are both now on the fourth month extension:

PHN 17,830 - Declaration due April 15, 2001
PHN 17,821 - Declaration due April 21, 2001

If we do not respond to the office action within the fourth month extension period the applications **will be abandoned by the US Patent Office**. Today is the last day of the fourth month extension for PHN 17,830 - you mention that one of the inventors suffers from a long-time illness. Can you please fax us **TODAY** a copy of the Declaration signed by the other inventor.

The other application, PHN 17, 821 has until the 21st of this month for the 4th month extension period. Dan Piotrowski, the attorney handling this application would like to

know if you can forward the Declaration you have which includes signatures of the other 3 inventors as soon as possible.

We will keep you informed as to what action we will take.
Please let me know the status at your end

Kind regards,
Noemi Chapa

Dear Noemi,

All inventors but one (unfortunately, the first inventor) have signed the documents. This week I have sent said inventor the documents again by certified mail. The courier will try to present the document three times, I believe.
I will inform you about the results.

With kind regards,

Hello:

This note is just a reminder that we need the sign documents for the above-subject application. They are due at the US Patent Office no later than April 16 without incurring late fees.

Can we expect to receive these documents before then? Please advice.

Thank you.

Hello again:

On this application I had sent you an e-mail back on April 4th requesting the signed documents. You had sent a reminder twice to the inventors hoping to get a response from them. This documents are now on a one month extension and can be submitted to the Patent Office by May 15th **without incurring a second month extension fee of \$390.00.**

Can you please advise of the status of these documents?

Thanks.
